Designed around you

- 2 GB memory built-in for up to 22 days of recording
- Micro SD memory card slot for virtually unlimited recording
- Time-stamped recording for easy file navigation

PHILIPS
sense and simplicity

Highlights

2 GB memory built-in

2GB

With the 2 GB of built-in memory, your Voice Tracer is able to capture up to 22 days of continuous recording.

2Mic stereo recording

Recording in noisy environments can be a hassle and for clear playback and good speech recognition results, a high-quality recording is essential. The Voice Tracers feature 2 built-in stereo microphones that are designed to deliver speech clarity and reduce background noise.

Speech-to-text

Turn talk into type with the Dragon NaturallySpeaking software delivering more accurate results than ever.

Automatic transcription

With our state-of-the-art software just plug the recorder into the PC, transfer your file and let it turn your talk into text.

Micro SD memory card slot

Virtually unlimited recording capacity thanks to a micro SD memory card slot supporting up to 32 GB of additional memory.

Up to 99% accuracy

The powerful software solution now more accurate than ever! Delivering up to 99% accuracy for an efficient workflow.

Stereo MP3 recording

mp3

The Voice Tracer captures all recordings in stereo and the popular MP3 format, the common audio format for consumer audio storage, as well as a de facto standard encoding for the transfer and playback of recordings.

Time-stamped recording

Thanks to time-stamped recording, the date and time of your recordings are added to the sound file, allowing you to easily find and navigate through your file library.

Voice-activation function

Voice-activated recording is a convenience feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recording stops automatically after you stop speaking and restarts automatically when you start speaking again.

- Optimised for notes
- Variable playback speed
- Voice volume indicator
- Voice-activated recording

Design and finishing

- Colour(s): silver shadow/black

Display

- Backlight: No
- Diagonal screen size: 38 mm/1.5 in
- Resolution: 112 x 112 pixels
- Type: Dot matrix LCD

Green specifications

- Lead-free soldered product

Power

- Batteries included
- Battery lifetime: up to 30 hours in LP recording mode
- Battery type: AAA/LR03 Alkaline
- Number of batteries: 2
- Rechargeable: No

Storage media

- Built-in memory capacity: 2 GB
- Built-in memory type: NAND Flash
- Mass storage class compliant

Product dimensions

- Product dimensions (W x H x D):
4 x 11.2 x 1.9 cm
- Product dimensions (W x H x D):
1.6 x 4.4 x 0.7 inch
- Weight: 0.055 kg
- Weight: 0.121 lb

System Requirements

- DVD-ROM drive
- Hard disk space: 2 GB
- Operating System: Windows 7, Windows Vista (32/64-bit), Windows XP (32-bit, SP2 or higher)
- Processor: Intel Pentium 4 or later or AMD Athlon 64, 1 GHz or later (SSE2 instruction set required), L2 Cache: 512 KB
- RAM memory: 1 GB
- USB: Free USB port
